

Marketplace Technical Foundation - Furniture

Prepared By: Ayesha (Rising Star)

System Workflow Overview

System Workflow Overview

User Workflow:

1. Browse Products -> Add to Cart -> Checkout -> Payment (Stripe) -> Order Confirmation.
2. Generate Shipment (Shippo API) -> User Tracks Order via Portal.

Admin Workflow:

1. Login -> View Analytics -> Manage Inventory -> Oversee Orders.
2. Updates Reflect Instantly in Sanity CMS.

Conclusion

This system architecture, combined with a clear workflow, ensures a streamlined experience for both customers and admins. By incorporating modern technologies and user feedback, the platform is optimized for scalability and efficiency.
